

Testing and calibration for gas meters and devices

Precision you can trust

In today's dynamic regulatory landscape, staying compliant with product standards has become essential for manufacturers, City Gas Distribution (CGD), and transmission companies. AT YMPL, we play an important role by helping mitigate risks and ensure precision with our testing, calibration, and certification services for gas meters ranging from G1.6 to G1600.

Our expertise spans residential, commercial, and industrial meters built on various measuring principles.

With measurement capabilities that cover flow rates from 0.016 to 2500 m³/hr, we maximise precision and minimise uncertainty.

Key services

YMPL is the authorised technical service partner for manufacturers and serves gas distribution and transmission companies across India, offering them expert solutions tailored to their needs.

- Third-party testing, calibration and inspection services
- Testing with air/methane or other gas mixtures
- Periodic calibration of critical components like sonic nozzles, rota meters and temperature sensors
- Comprehensive aftermarket technical services

Meters and devices we serve

- Diaphragm meters
- Rotary Positive Displacement (RPD) meters
- Turbine meters
- Ultrasonic meters
- Thermal mass flow meters
- Additional Functionality Devices (AFD)
- Electronic Volume Correctors (EVC)
- Pressure regulators

Global certification made easy

YMPL's accreditations from NABL and UKAS simplify the certification process:

For India: Secure BIS and Model Approval with LMD (W&M) using YMPL-certified test reports.

For international: Gain certifications like MID and OIML with the help of our trusted international partners, Istituto Giordano (Italy) and SASTEK (Turkey).

We ensure your devices meet international standards, including EN 1359, EN 14236, EN 12480, EN 12261, EN 17526, EN 16314, OIML R 137, and IS 14439 (Part 1 and 2).

Why YMPL?

Comprehensive solution provider: From initial prototype evaluation and pre-compliance to full-compliance testing.

Commitment to excellence: Our skilled engineers deliver unmatched quality and reliability.

Market access expertise: Our certified test reports enable seamless entry into Indian and international markets.

Industry leader: One of India's largest independent testing and calibration service providers.
